SUBJECT INDEX

Absolute cross-sections
Absolute cross-section measurements for electron-impact single ionization of Se^+ and Te^+ 207
Absorption
Multiphoton excitation of tricarbonyl–cyclooctatetraene–iron. Wavelength-dependent competition between ionization and dissociation 181
Aliphatic hydrocarbons
Ion/molecule reactions of CO_2^+ with simple aliphatic hydrocarbons at thermal energy 165
Allyl iodide
Displacement reaction dynamics of fluorine atoms with allyl iodide molecules 55
Appearance energies
Multiphoton excitation of tricarbonyl–cyclooctatetraene–iron. Wavelength-dependent competition between ionization and dissociation 181
Beam scattering experiments
A beam scattering study of non-dissociative charge transfer between Kr^+ and CH_4 at collision energies below 1 eV 47

Beam-gas experiment
Electronic energy partitioning in the reactions of metastable Mg*, Ca* and ground-state Ca atoms with S_2Cl_2 63
Binding energies
Stabilities of anionic mixed clusters of sulfur dioxide and water 139
Bond energies
Multiphoton excitation of tricarbonyl–cyclooctatetraene–iron. Wavelength-dependent competition between ionization and dissociation 181

C_{60}
C_{60} inflation: Production of C_{62}, C_{64}, ... 243
C_{70}
C_{60} infiltration: Production of C_{62}, C_{64}, ... 243

Cage expansion
C_{60} inflation: Production of C_{62}, C_{64}, ... 243
Charge transfer
A beam scattering study of non-dissociative charge transfer between Kr^+ and CH_4 at collision energies below 1 eV 47
Effects of O_2^- and SF_6 vibrational energy on the rate constant for charge transfer between O_2^- and SF_6 31
Resonance enhanced multiphoton ionization of argon: reactivity as a probe for the $^2P_{1/2}/^2P_{3/2}$ population 1
Cluster–surface scattering
Cluster–surface scattering in a reflectron collider: probing fullerenes by surface impact 79
Cluster ions
Intracluster ion–molecule reactions within CF_3H cluster system 119
Positive and negative cluster ions and multiply charged ions productd from frozen nitrogen, carbon monoxide and oxygen molecules under energetic, heavy ion impact 129
CO_2^+
Ion/molecule reactions of CO_2^+ with simple aliphatic hydrocarbons at thermal energy 165
Collisions
Photo emissions from N_2^{+} ion beam–target gas collisions in a modified commercial sector mass spectrometer 213
Crossed-beam measurements
Absolute cross-section measurements for electron-impact single ionization of Se^+ and Te^+ 207

Displacement reaction
Displacement reaction dynamics of fluorine atoms with allyl iodide molecules 55

Electron impact ionization
Intracluster ion–molecule reactions within CF_3H cluster system 119

Electron affinity
Observation of thermal electron detachment from cyclo-$C_4F_8^-$ in FALP experiments 195
Electron attachment
Observation of thermal electron detachment from cyclo-$C_4F_8^-$ FALP experiments 195
Electron detachment
Observation of thermal electron detachment from cyclo-$C_4F_8^-$ FALP experiments 195
Electron impact
Absolute cross-section measurements for electron-impact single ionization of Se^+ and Te^+ 207
Emissions
Photo emissions from $N_2^{\cdot+}$ ion beam – target gas collisions in a modified commercial sector mass spectrometer 213
Energetic heavy ions
Positive and negative cluster ions and multiply charged ions produced from frozen nitrogen, carbon monoxide and oxygen molecules under energetic, heavy ion impact 129

Fluorine
Displacement reaction dynamics of fluorine atoms with allyl iodide molecules 55
Fragmentation
Multiphoton excitation of tricarbonyl–cyclooctatetraene–iron. Wavelength-dependent competition between ionization and dissociation 181
Fragmentation pathways
On the dissociation pathways of nitrobenzene 229
Frozen gases
Positive and negative cluster ions and multiply charged ions produced from frozen nitrogen, carbon monoxide and oxygen molecules under energetic, heavy ion impact 129
Fullerenes
C_{60} inflation: Production of C_{62}, C_{64}, ... 243
Cluster–surface scattering in a reflectron collider: probing fullerenes by surface impact 79

Ground state Ca
Electronic energy partitioning in the reactions of metastable Mg*, Ca* and ground-state Ca atoms with S_2Cl_2 63
Guided ion beam
Resonance enhanced multiphoton ionization of argon: reactivity as a probe for the $^2P_{1/2}/^2P_{3/2}$ population 1

He_2^+
Inelastic scattering of He_2^+ from $v = 1$ vibrationally excited HF molecules 39

HF
Inelastic scattering of He_2^+ from $v = 1$ vibrationally excited HF molecules 39

Inelastic scattering
Inelastic scattering of He_2^+ from $v = 1$ vibrationally excited HF molecules 39
Ion trap
New operating mode of a quadrupole ion trap in mass spectrometry. Part 3. Mass resolution 155
Ion/molecule reactions
Intracluster ion–molecule reactions within CF_3H cluster system 119

keV
Photo emissions from $Na_2^{\cdot+}$ ion beam–target gas collisions in a modified commercial sector mass spectrometer 213

Metastable decay
Metastable decay of N_2^+–He_n $(v = 1)$ $(1 < n < 6)$ clusters 19
Metastable ion decay
Multiphoton excitation of tricarbonyl–cyclooctatetraene–iron. Wavelength-dependent competition between ionization and dissociation 181
Metastable Mg* and Ca*
Electronic energy partitioning in the reactions of metastable Mg*, Ca* and ground-state Ca atoms with S_2Cl_2 63
Multiphoton ionization dissociation
Multiphoton excitation of tricarbonyl–cyclooctatetraene–iron. Wavelength-dependent competition between ionization and dissociation 181

$N_2^{\cdot+}$
Photo emissions from $N_2^{\cdot+}$ ion beam–target gas collisions in a modified commercial sector mass spectrometer 213
Negative ion clusters
Stabilities of anionic mixed clusters of sulfur dioxide and water 139
Negative ions
Observation of thermal electron detachment from cyclo-$C_4F_8^-$ in FALP experiments 195
Nitrobenzene
On the dissociation pathways of nitrobenzene 229
Nitrogen–helium clusters
Metastable decay of N_2^+–He_n $(v = 1)$ $(1 < n < 6)$ clusters 19

Photolysis
On the dissociation pathways of nitrobenzene 229

Photon
Photo emissions from N_2^{+} ion beam–target gas collisions in a modified commercial sector mass spectrometer 213
Product ion distribution
Ion/molecule reactions of CO_2^+ with simple aliphatic hydrocarbons at thermal energy 165

Rate constant
Ion/molecule reactions of CO_2^+ with simple aliphatic hydrocarbons at thermal energy 165
Rate constants
Effects of O_2^- and SF_6 vibrational energy on the rate constant for charge transfer between O_2^- and SF_6 31
Reflectron collider
Cluster–surface scattering in a reflectron collider: probing fullerenes by surface impact 79
Resolution
New operating mode of a quadrupole ion trap in mass spectrometry. Part 3. Mass resolution 155
Resonance enhanced multiphoton ionization
Resonance enhanced multiphoton ionization of argon: reactivity as a probe for the $^2P_{1/2}/^2P_{3/2}$ population 1

Selected-ion flow-drift tube
Effects of O_2^- and SF_6 vibrational energy on the rate constant for charge transfer between O_2^- and SF_6 31
Selenium and tellurium ions
Absolute cross-section measurements for electron-impact single ionization of Se^+ and Te^+ 207
SO_2–H_2O gas mixtures
Stabilities of anionic mixed clusters of sulfur dioxide and water 139
State-selected ion/molecule reactions
Resonant enhanced multiphoton ionizations of argon: reactivity as a probe for the $^2P_{1/2}/^2P_{3/2}$ population 1
Surface collider
Cluster–surface scattering in a reflectron collider: probing fullerenes by surface impact 79

Theory
New operating mode of a quadrupole ion trap in mass spectrometry. Part 3. Mass resolution 155
Thermal ion-beam
Ion/molecule reactions of CO_2^+ with simple aliphatic hydrocarbons at thermal energy 165
Time of flight mass spectroscopy
On the dissociation pathways of nitrobenzene 229
